Professional Summary

Aspiring Software Engineer with foundations in Java, Data Structures, Object-Oriented Programming, DBMS, and SDLC. Experienced in developing AI-powered and full-stack web applications. Skilled in back-end development, REST APIs, scalable software solutions, and problem solving through efficient coding practices.

Education

Qualification	Institution	CGPA/%	Year
B.Tech in Computer Science and Engineering (IoT)	Malla Reddy Engineering College (MREC)	8.06	2022–2026
Pre-University Education	Abhyudaya PU College	84.83%	2020–2022
Secondary School	Chinmay JC High School	80%	2019–2020

Experience

Infosys Springboard – Artificial Intelligence Virtual Internship Dec 2025 – Feb 2026

- Built an AI-based Research Paper Generator Agent using Artificial Intelligence techniques.
- Designed modular architecture with API integration for efficient data flow.
- Applied SDLC practices focusing on clean code, debugging, testing, and optimization.

Projects

AI Drug Repurposing Platform — AI + Web Development

- Built an AI-driven system to analyze healthcare datasets for drug repurposing using Machine Learning models.
- Designed scalable backend architecture with REST APIs.
- Optimized prediction workflows and data handling pipelines.

Real-Time Image Search Engine — Web Development

- Developed a real-time image search engine using asynchronous API calls.
- Implemented responsive UI for desktop and mobile devices.
- Repository: github.com/Eprashanth04/Image-Search-Engine

Spam Detection for IoT Devices — Machine Learning

- Developed a Random Forest ML model using 500K+ IoT device records.
- Applied feature engineering and preprocessing to improve classification accuracy.
- Deployed the model through a Flask web application.
- Repository: github.com/Eprashanth04/An-efficient-spam-detection-technique-for-IoT-device

Achievements

- 3-Star Java Programmer on HackerRank.
- HackerRank Java Certification (2025).
- Elite Silver in NPTEL Internet of Things, IIT Kharagpur (82%).

Skills

Programming Languages: Java, JavaScript, SQL

Web Development: HTML, CSS, React.js, Node.js, Express.js, MongoDB

Tools: GitHub, VS Code, Excel

Technical Concepts: DSA, OOP, DBMS, SDLC, Machine Learning, Computer Networks
